

Disclaimer & Guidance for Teachers: Review Lesson Plan

This **PARENT** (at home,) **Review Lesson Plan** is intended for use on off days of instructions for Remote Learning. The intent is for teachers to fill out the lesson plan and for parents to go through the activities with the students. It does not teach new information and does not include all ten steps of the lesson, because only teachers should be teaching the ten-step S.P.I.R.E. Lessons, (or five-step Sounds Sensible Lessons) with their students. The lesson will practice and review concepts the students have already mastered or are working on with the teacher during instruction.

The hands-on materials for the lessons are included as files on the COVID Site (By level,) and can be sent to the parents, or printed by the teacher and sent home with the Review Lesson that has been individualized for each student.

Use of this lesson **REQUIRES** both communication between teachers and parents to make sure the teacher is filling out the planner with the student's current level of content, and the parents are supervising the review with the students at home.

Sincerely,

The School Specialty Curriculum Professional Development Team
